

BOVERNIER TO MARTIGNY

Easy outing.

But be warned if you fear hights!

This excursion takes us through Bovernier's vineyards to a path secured with ladders & chains above the Dranse river bed. Most of us have driven on the road through this valley that Julius Caesar & Napoleon assaulted during their war crusades without looking for more than the cop that might be waiting to hand us a speeding ticket while we ride to Verbier as fast as possible every week-end! It is worth walking this path once to see it from another viewpoint.
